# Ocean Prediction Workshop

A workshop exploring Ocean Prediction science across scales and disciplines and how to meet ocean users' needs

The workshop focuses on ocean prediction science and application, including modelling, use of observations and providing ocean services. Users of ocean information are also most welcome.

It will be structured as a mixture of talks, posters and themed discussion sessions

Abstracts submissions for 20min Talks and Posters:

Open until 1<sup>st</sup> April 2018

Registration: Open 1<sup>st</sup> April until 1<sup>st</sup> May 2018
